

## Net Stable Funding Ratio (NSFR) at September 30, 2023

The Basel Committee on Banking Supervision (BCBS) had introduced the Net Stable Funding Ratio (NSFR) in order to ensure resilience over a longer-term time horizon by requiring banks to fund their activities with more stable sources of funding. NSFR is defined as the amount of available stable funding relative to the amount of required stable funding. "Available stable funding" (ASF) is defined as the portion of capital and liabilities expected to be reliable over the time horizon considered by the NSFR, which extends to one year. The amount of stable funding required ("Required stable funding") (RSF) of a specific institution is a function of the liquidity characteristics and residual maturities of the various assets held by that institution as well as those of its off balance sheet (OBS) exposures. The Bank is required to maintain the NSFR on an ongoing basis on a standalone Bank and on a Group Level. The minimum NSFR requirement set out in the RBI guideline for the Bank effective October 1, 2021 is 100%.

The following table sets out the unweighted and weighted value of the NSFR components of Bandhan Bank at June 30, 2023 and September 30, 2023 (i.e. quarter-end observation).
